

Master Gardeners and the Hypertufa Workshop – Saturday, November 1, 2008

We had a good time on Saturday afternoon at Brandie Sparr's house.

Ann Waring, Fran Cook, Mary Kukla, Brandie, and myself all made pots, troughs, stepping stones and birdbaths. With Brandie's expert advice, Fran and Ann also made decorative birdbaths by molding the hypertufa around large leaves. What a great accent they will be for their gardens!

We all enjoyed this project and hope to repeat it again sometime. Thanks again to Brandie for hosting our workshop and offering advice and suggestions. It was fun! Jennifer
